

2012 CATALOGUE

equipment and accessories
for supermarkets and the food and catering industries

NEUTRAL LINE

Established in the late 50s, BALBONI has always operated in the mechanical engineering industry. Since the late '70s, BALBONI INOX has been designing and manufacturing furniture and equipment for the sectors including large systems, industrial kitchens, and mass retail.

The entire production range is built using AISI 304 stainless steel (AISI 316 available on request). All the projects and processing are handled by highly qualified staff using technologically advanced workstations, thereby ensuring impeccable quality in both the standard lines and the bespoke orders.

If necessary, we can also arrange for the transportation and assembly of the items we produce. Our after-sales service is synonymous with professionalism and reliability, with staff working quickly and carefully to meet customers' needs.

Over forty years' experience in the industry placed at your service

Building a butcher's rear counter.

Building a cold meats and cheese

The quality of our products is demonstrated by the results obtained

Building a pastry-making section
