COLD STORAGE LINE

Balboni Inox

Leading manufacturer of refrigerated equipment for mass retail

Balboni Inox offers the most comprehensive range of stainless steel refrigerated equipment on the market today.

Featuring an innovative design, Balboni Inox fish counters are the most complete and reliable range of products around, making Balboni the company that the industry looks to. The range produced as standard includes endless models designed to blend impeccable style and unique flexibility, from conventional, neutral display counters through to refrigerated fish counters with provisions for ducting, and custom-designed orders.

All the articles can be produced and customised to meet the customer's needs exactly, starting from the choice of materials (AISI 304 stainless steel or AISI 316 stainless steel) through to the final design of the counter. As mentioned earlier, all the equipment can be supplied in various versions, including neutral, refrigerated and fan, static, and ready for remote connection.

The fish counters are accompanied by a full range of accessories, to provide the user with all the essential tools to make their work easier.

Pictures are provided for illustration purposes only and products may differ from those shown.

The tables, cabinets, and refrigerated pizza counters made entirely of AISI 304 stainless steel feature matchless arrangement flexibility and reliability.

All the items are built with AISI 304 stainless steel, both internally and externally, and feature rounded inner corners, a remote thermostat function control, and two temperature options: Normal or Low. Upon request, all the versions can also be set up for connection to a remote unit.

The pizza counters offer two depths: 700 or 800 mm, with standalone glass cabinet or with trays fitted into the worktop. The unit can feature refrigerated doors or be combined with neutral or refrigerated drawers.

The tables and refrigerated cabinets can be built in Delicatessen or Pastries versions, depending on the model: GN 1/1, GN 2/1 grills, 60x40 trays or 80x60 trays.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

ARTICLES

Ellipsoidal shaped leg. Made of AISI 304 stainless steel. Scotch Brite finish. Screen printing available on request. Readily serviceable.

MODEL	DIMENSION
0200003100	500x800
0200003200	screen-printed wave

Front and side casing made of tubular stainless steel (Ø 21). Brushed finish

MODEL	DIMENSION
0200003300	2200x1100
0200003350	1100x1100
0200003370	2000x1000

Appendage/extension for fish counter. Made of AISI 304 stainless steel (AISI 316 available on request). Round tubular frame with telescopic function and adjustable feet. Front fastening for counter edge.

MODEL	DIMENSION
0200003400	900x700

Pictures are provided for illustration purposes only and products may differ from those shown.

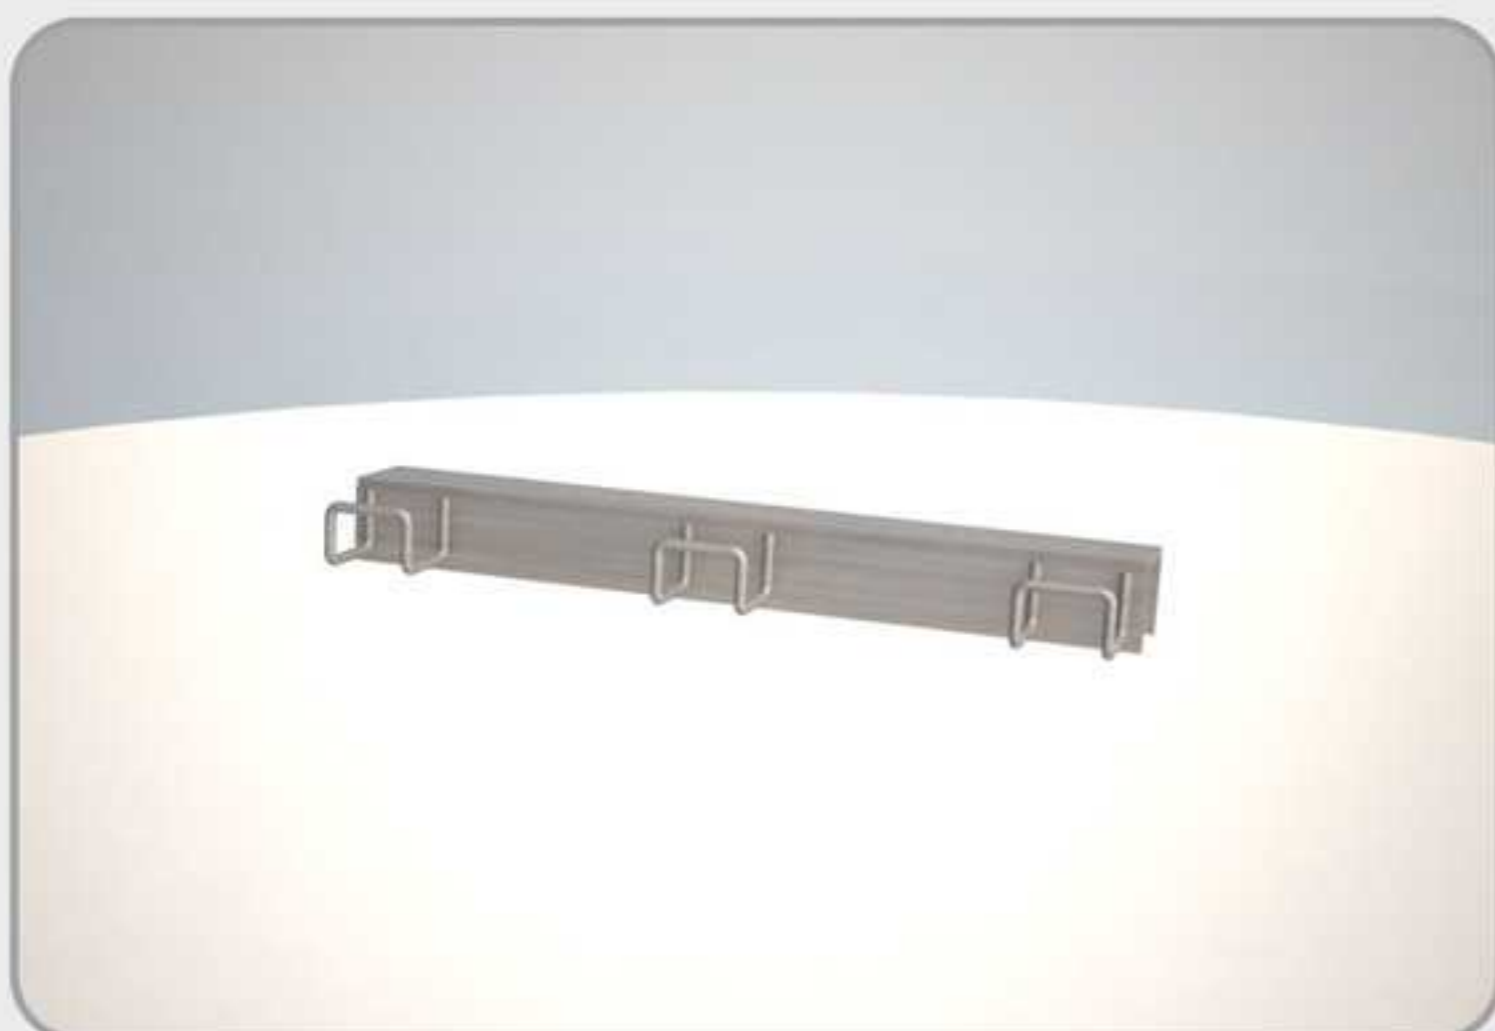

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

ARTICLES

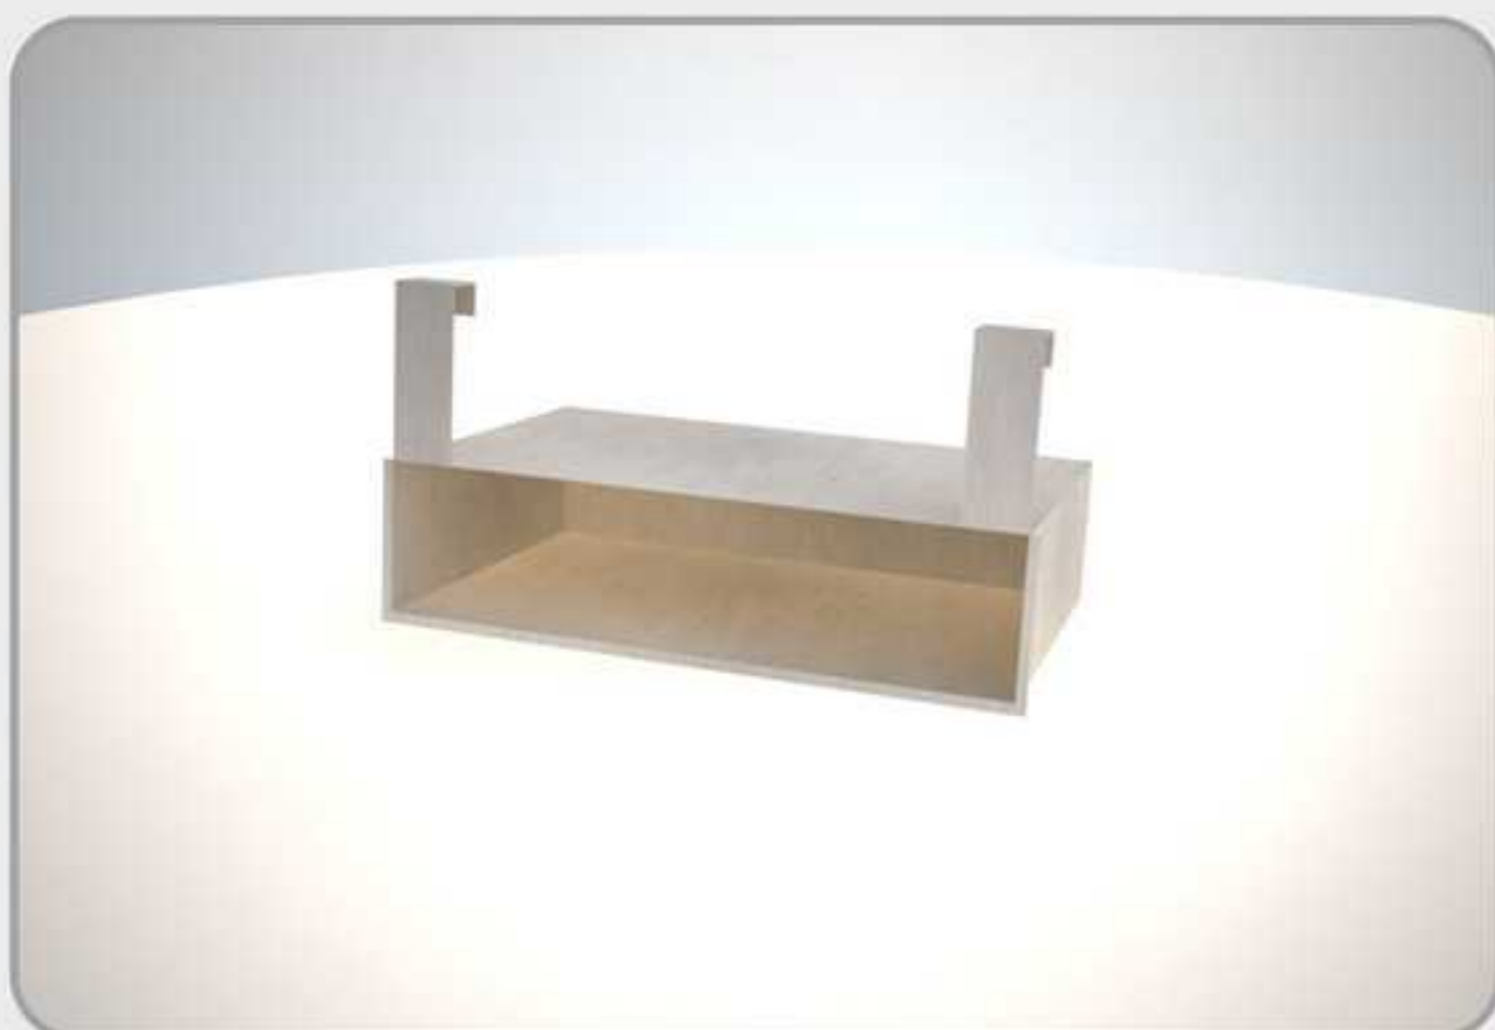

Microperforated stainless steel ice melting pipe. With counter-edge fastening. Removable, with threaded end and quick coupling

MODEL	DIMENSION
0200003500	Ø 21,3x1000
0200003510	Ø 21,3x2000

Counter-edge bag holder. Made of AISI 304 stainless steel.

MODEL	DIMENSION
0200003600	300x30

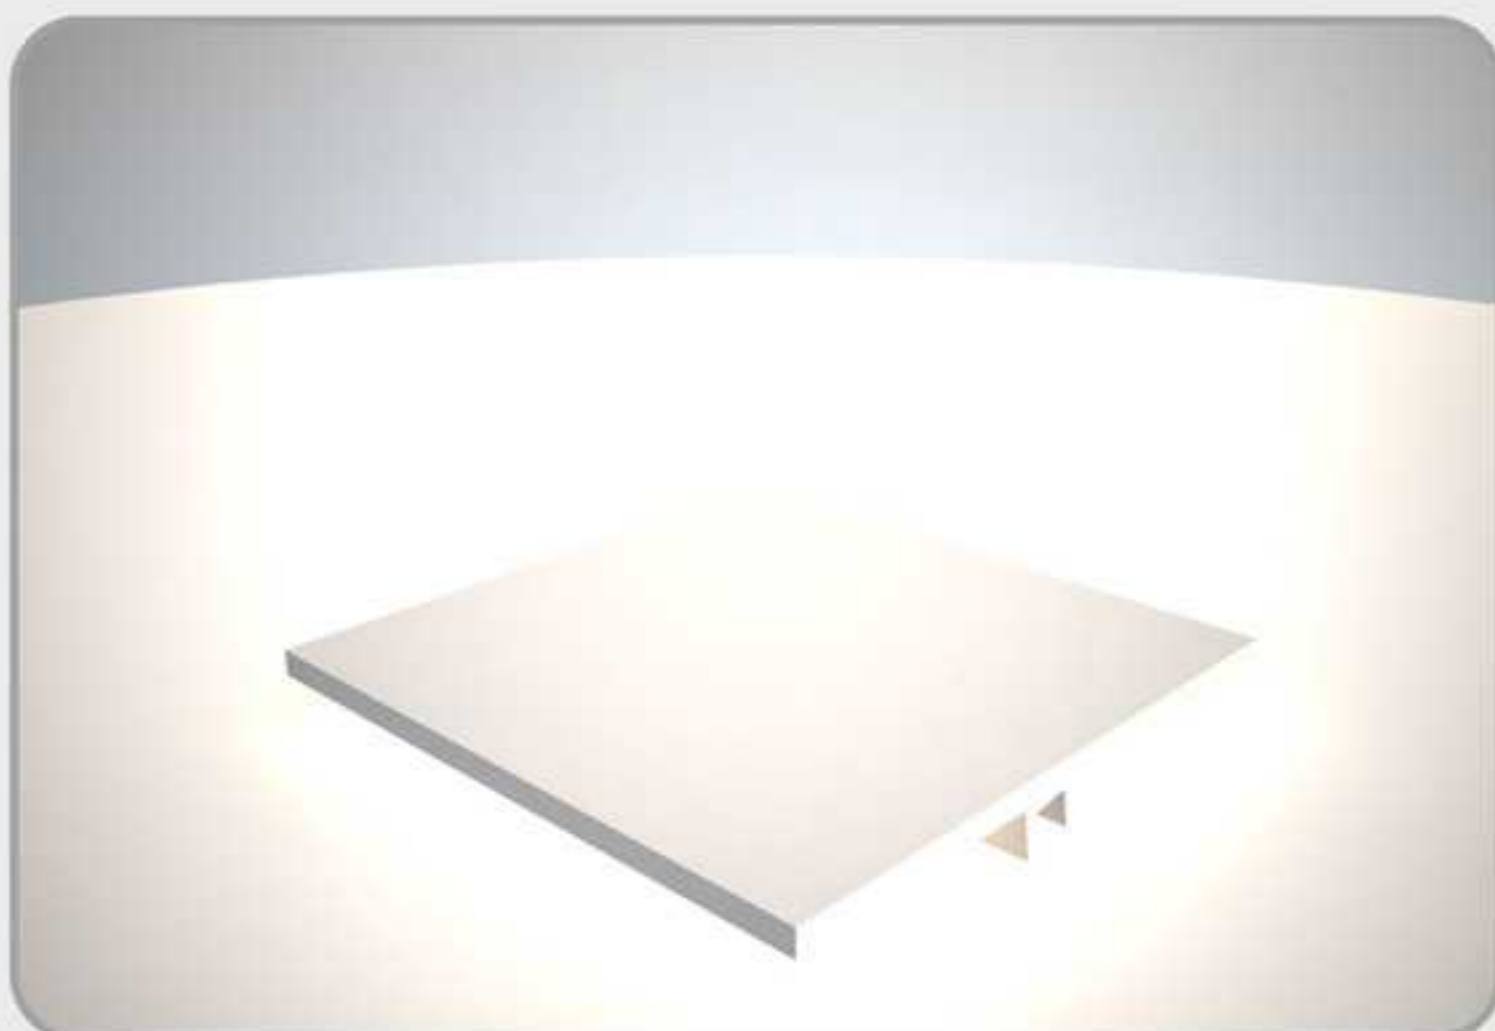

Counter-edge paper holder. Made of AISI 304 stainless steel.

MODEL	DIMENSION
0200003700	625x400x150

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

ARTICLES

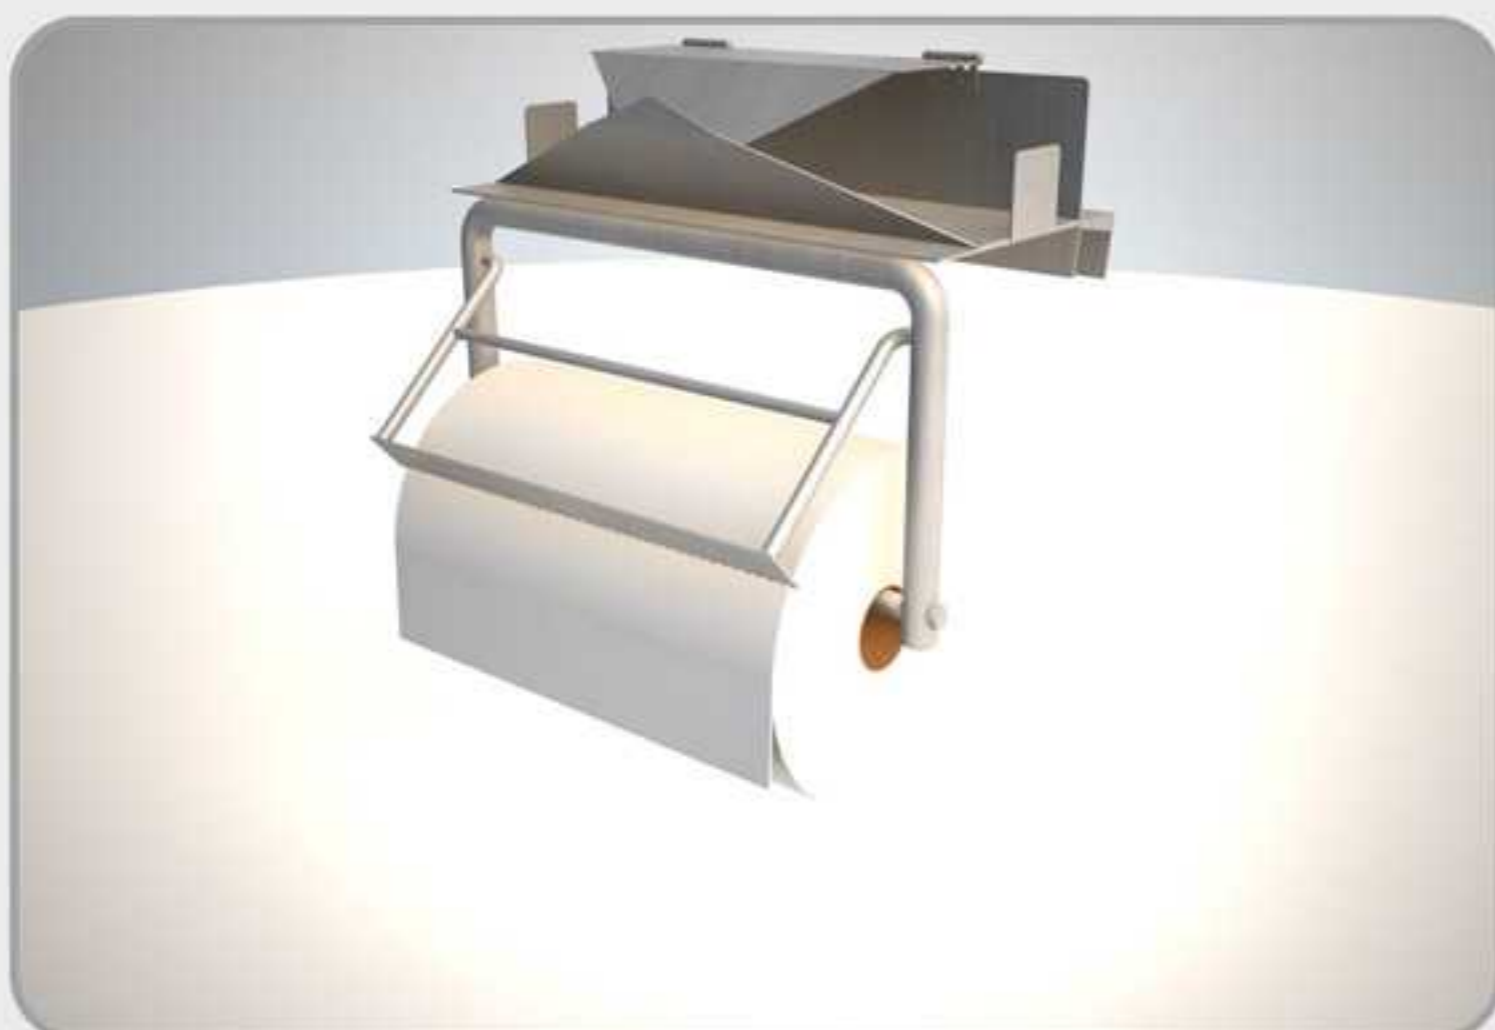

Counter-edge worktop. Made of white, 25 mm-thick, food-grade polyethylene

MODEL	DIMENSION
0200003800	500x400

Counter-edge can holder. Made of AISI 304 stainless steel.

MODEL	DIMENSION
0200003900	Ø 250

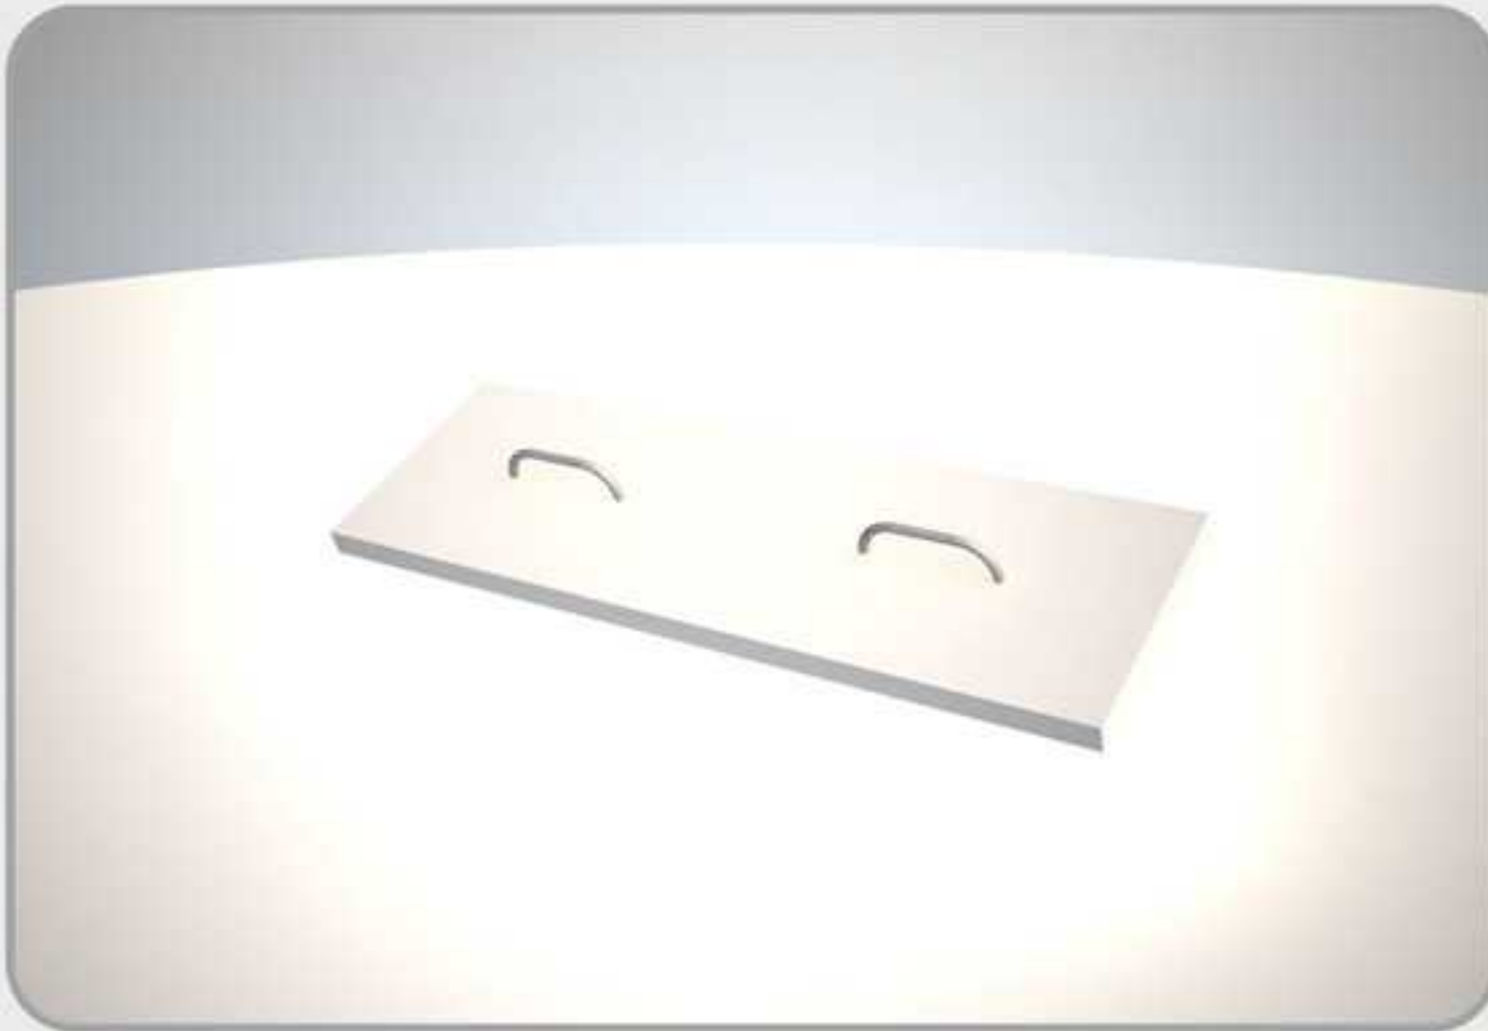

Counter-edge kitchen paper/plastic bag roll holder. Made of AISI 304 stainless steel. Upper bag roll holder and lower paper roll holder.

MODEL	DIMENSION
0200004000	410x310x330H

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

ARTICLES

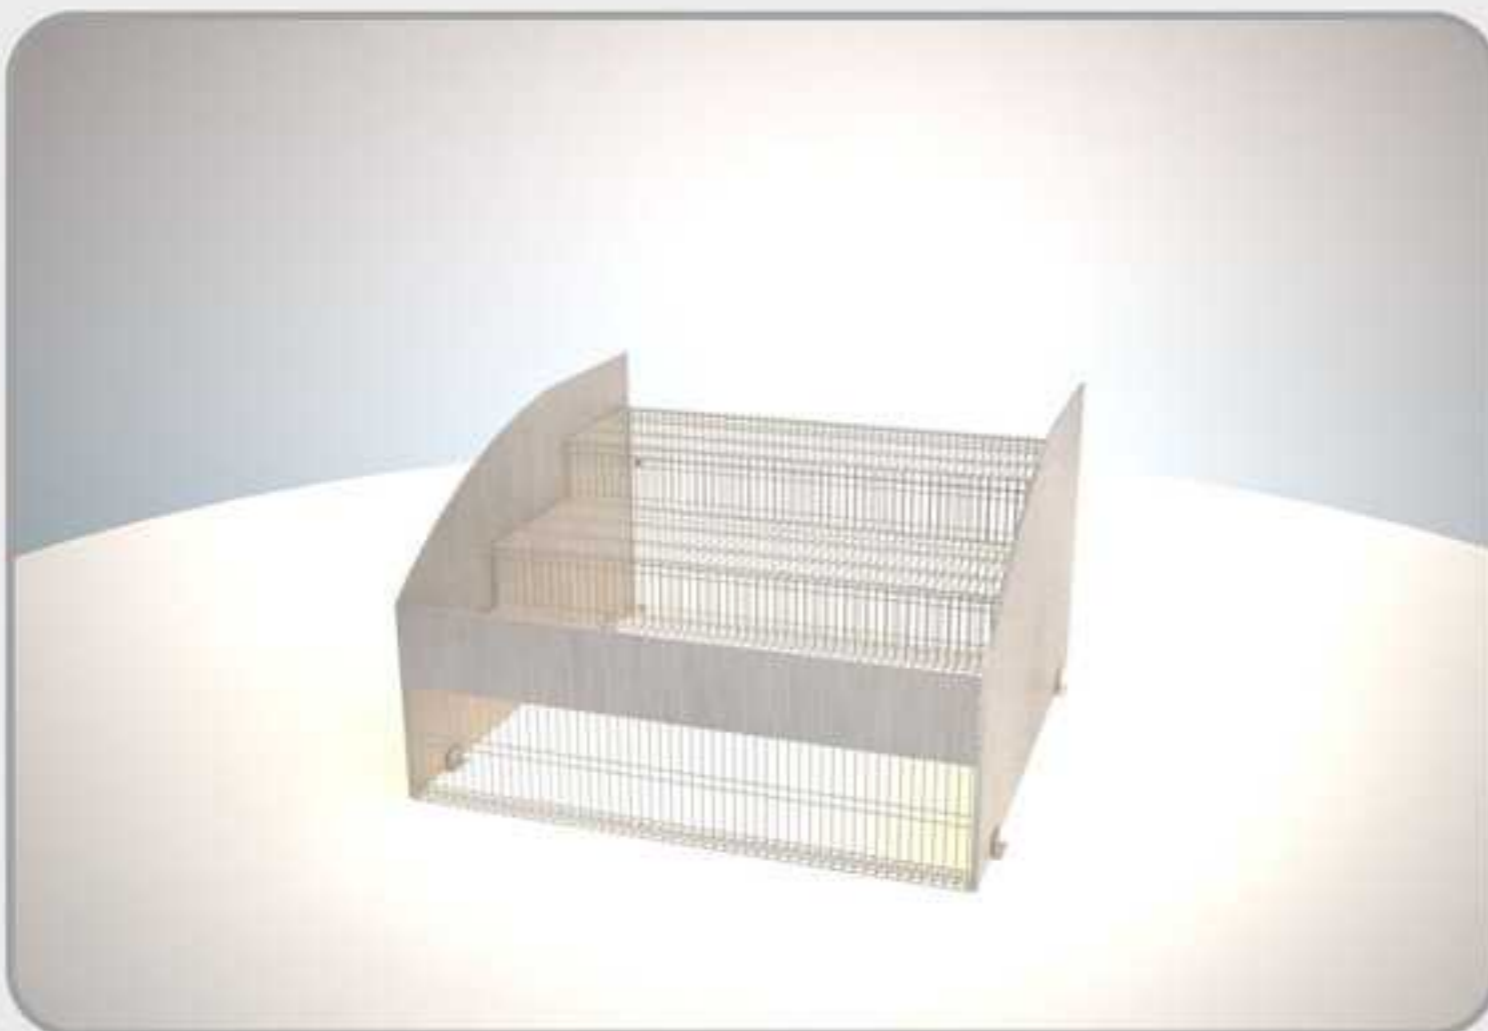

Ice compactor made of white, 20 mm-thick polyethylene with handles made of AISI 304 stainless steel.

MODEL	DIMENSION
0200004100	600x200

Glass holder trolley. Stainless steel tubular frame. Stainless steel swivel casters (Ø 100 mm). Polythene-coated shelves.

MODEL	DIMENSION
0200004200	700x600x1300H

Stepped display unit for slab. Made of stainless steel wire with Perspex side and front panels

MODEL	DIMENSION
0200004300	810x810x400

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

ARTICLES

Refrigerated display counter for fresh fish. Made of stainless steel AISI 304. Neutral slab with glass, trolley bumper and ice guard. Cupboard base with three refrigerated doors. Operating temperature $-2^{\circ} + 8^{\circ} \text{C}$. Power supply: 220V 50hz

MODEL	DIMENSION
0200004400	2200x1100

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

DISPLAY UNITS FOR MUSSELS

Display unit for mussels with static refrigeration. Made of AISI 304 stainless steel. Operating temperature $+2^{\circ}$ $+4^{\circ}$ C. Built-in compressor unit. Electronic control unit for counter functions. Front and side tempered glass guards, H = 200 mm. Round tubular frame base with telescopic function. Adjustable feet.

Power supply: 220V 50 Hz

MODEL	DIMENSION
0200004500	1100x1100 (low edge)
0200004600	1100x1100 (high edge)
0200004700	LID FOR MUSSELS (Perspex, sliding)

Showcase for mussels with static refrigeration. Made of AISI 304 stainless steel. Operating temperature $+2^{\circ}$ $+4^{\circ}$ C. Built-in compressor unit. Electronic control unit for counter functions. Side access via doors. Round tubular frame base.

Adjustable feet. Power supply: 220V 50Hz

MODEL	DIMENSION
0200004800	1110x500x1300H
0200004900	1250x500x1300H

Pictures are provided for illustration purposes only and products may differ from those shown.

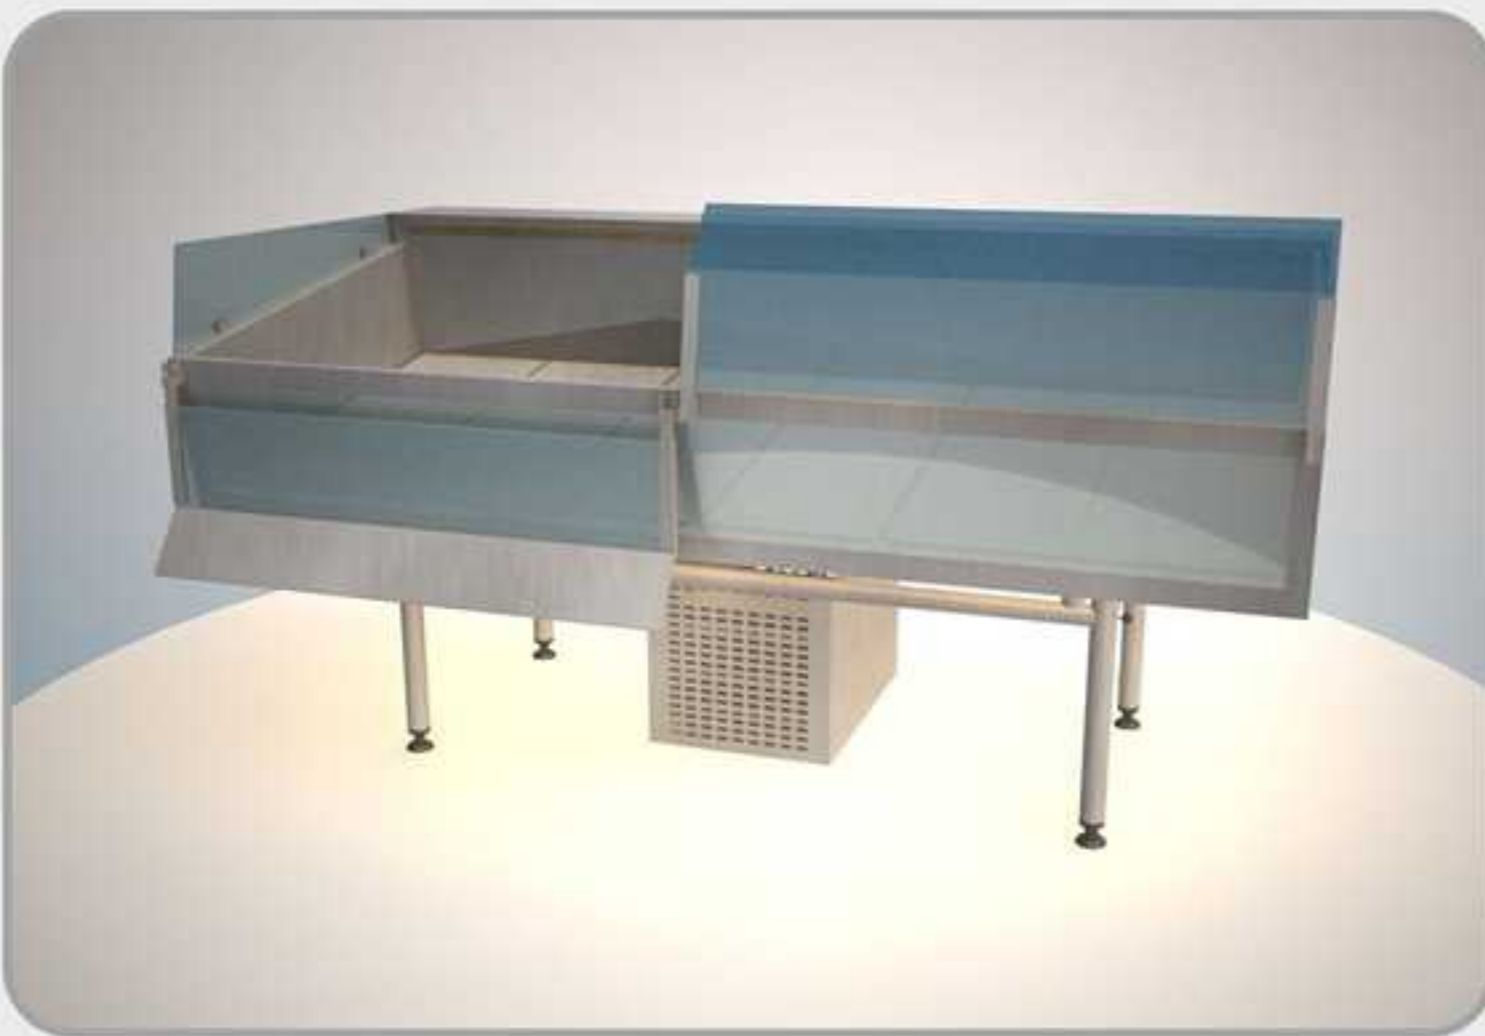

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

DISPLAY UNITS FOR MUSSELS

Display unit for mussels with static refrigeration and double evaporator. Made of AISI 304 stainless steel. Well height = 200 mm. Operating temperature +2° +4 ° C. Built-in compressor unit. Electronic control unit for counter functions. Front and side tempered glass guards, H = 200 mm. Round tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005000	2200x1100

Display unit for mussels with static refrigeration. Made of AISI 304 stainless steel. Well height = 300 mm. Operating temperature +2° +4 ° C. Built-in compressor unit. Electronic control unit for counter functions. Front double-glazed panel. Tilting front guards made of Perspex. Round tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005100	2200x1100

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "GOLD" LINE FISH COUNTER

DISPLAY UNIT FOR PRE-PACKED FISH

Display unit for pre-packed fish with ventilated refrigeration. Made of AISI 304 stainless steel. Operating temperature 0°+4 °C. Built-in compressor unit. Electronic control unit for counter functions. Front and side tempered glass guards, H = 200 mm. Round tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005200	1250x1100

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "PLATINUM" LINE FISH COUNTER

DISPLAY UNIT FOR MUSSELS AND PRE-PACKED FISH

Display unit for fresh fish in neutral version. Made of AISI 304 stainless steel. Can be plumbed together with all models in the Platinum series. Tilting front guards on guides. Side panels, H=200mm. Square tubular frame base with telescopic function. Adjustable feet.

MODEL	DIMENSION
0200005300	1250x1100

Display unit for fresh fish in refrigerated version. Made of AISI 304 stainless steel. Can be plumbed together with all models in the Platinum series. Built-in compressor unit. Electronic control unit for counter functions. Tilting front guards on guides. Side panels, H=200mm. Square tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005400	1250x1100

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "PLATINUM" LINE FISH COUNTER

DISPLAY UNIT FOR MUSSELS AND PRE-PACKED FISH

Display unit for mussels with static refrigeration. Made of AISI 304 stainless steel. Operating temperature $+2^{\circ} +4^{\circ} \text{C}$. Can be plumbed together with all models in the Platinum series. Built-in compressor unit. Electronic control unit for counter functions. Tilting front guards on guides. Side panels, H=200mm. Square tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005500	1250x1100

Self-service display unit for packed products with ventilated refrigeration. Made of AISI 304 stainless steel. Operating temperature $0^{\circ} +4^{\circ} \text{C}$. Can be plumbed together with all models in the Platinum series. Built-in compressor unit. Electronic control unit for counter functions. Tilting front guards on guides. Side panels, H=200mm. Square tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005600	1250x1100

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "PLATINUM" LINE FISH COUNTER

DISPLAY UNIT FOR MUSSELS AND PRE-PACKED FISH

Self-service display unit for packed products with upright section, with ventilated refrigeration. Made of AISI 304 stainless steel. Operating temperature 0°+4 °C. Features well and two glass shelves. Rear double-glazed panel. Can be plumbed together with all models in the Platinum series. Built-in compressor unit. Electronic control unit for counter functions. Square tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005700	1250x1100x1300

Multipurpose display unit with upright section for pre-packed products and mussels. Made of AISI 304 stainless steel. Operating temperature 0+4°C. With self-service well and static refrigeration cell for mussels. Rear double-glazed panel. Can be plumbed together with all models in the Platinum series. Built-in compressor unit. Electronic control unit for counter functions. Square tubular frame base with telescopic function. Adjustable feet. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200005800	1250x1100x1300

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "PLATINUM" LINE FISH COUNTER

ARTICLES

Square base with rounded corners. Made of AISI 304 stainless steel.
Scotch Brite finish. Readily serviceable.

MODEL	DIMENSION
0200005900	1250x1100

Kit containing stainless steel swivel casters, Ø 100 mm, (qty: 2 with brakes)

MODEL	DIMENSION
0200006000	Ø 100mm

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - "PLATINUM" LINE FISH COUNTER

WALL DISPLAY CABINETS

Refrigerated wall cabinet with upright section for pre-packed products with fan refrigeration. Made of AISI 304 stainless steel. Features well and two middle shelves. Downlighting. Automatic roller blind for night-time cover.

Operating temperature + 4 ° +6 °C. Built-in compressor unit. Electronic control unit for counter functions. Power supply: 220V 50 Hz

MODEL	DIMENSION
0200006100	1080x840x1600H
0200006200	1960x840x1600H

Upright refrigerated wall cabinet for pre-packed products with fan refrigeration. Made of AISI 304 stainless steel. Features well and four middle shelves. Downlighting. Operating temperature 0°+4 °C. Built-in compressor unit. Electronic control unit for counter functions. Power supply: 220v 50hz

MODEL	DIMENSION
0200006300	1860x830x1940
0200006400	2550x830x1940
0200006500	Front sliding glass panels
0200006600	Automatic roller blind

Pictures are provided for illustration purposes only and products may differ from those shown.

COLD STORAGE LINE - REFRIGERATED CUPBOARDS

CLIMA SERIES

Outer/inner AISI 304 stainless steel
75 mm-thick insulation layer
Rounded internal corners
Stainless steel adjustable feet
Rev. doors with stop for 105 ° opening
Handles made of AISI 304 stainless steel

Replaceable magnetic seal
Key-operated lock
AISI 304 stainless steel racks and guides
Weather-sealed condensing unit
Ventilated/static refrigeration with 30% - 99% adjustment control

High-efficiency air diffuser
Evaporator treated against electrophoresis
Automatic defrost
Automatic condensate evaporation
Electronic thermostat
Lighting

The static/ventilated refrigeration operation is ideal for the storage of delicate products such as pasta, creams, mousses and semi-finished products which are generally prone to rapid dehydration (fan speed adjustment range: 30% to 99%). A lower airflow setting ensures greater humidity. With fan refrigeration the airflow which hits the product guarantees uniform temperature levels (100% fan speed). The higher the airflow, the lower the humidity.

COLD STORAGE LINE - REFRIGERATED TABLES

MASTER 600 SERIES

Outer/inner AISI 304 stainless steel
60 mm-thick insulation layer
Rounded internal corners
Stainless steel adjustable feet
Rev. doors with stop for 105 ° opening
Handles made of AISI 304 stainless steel

Replaceable magnetic seal
Shelf supports made of PVC
Shelves, 33x43, AISI 304 stainless steel
Worktop with rounded front
Soundproof motor compartment
Weather-sealed condensing unit (plug-in) with electric op. (remote)

Motor posit. on RH side (LH side on request.)
Ventilated refrigeration
Evaporator treated against electrophoresis
Replaceable refrigeration system
Automatic hot gas defrost
Automatic condensate evaporation
Electronic thermostat

COLD STORAGE LINE - PIZZA MAKING

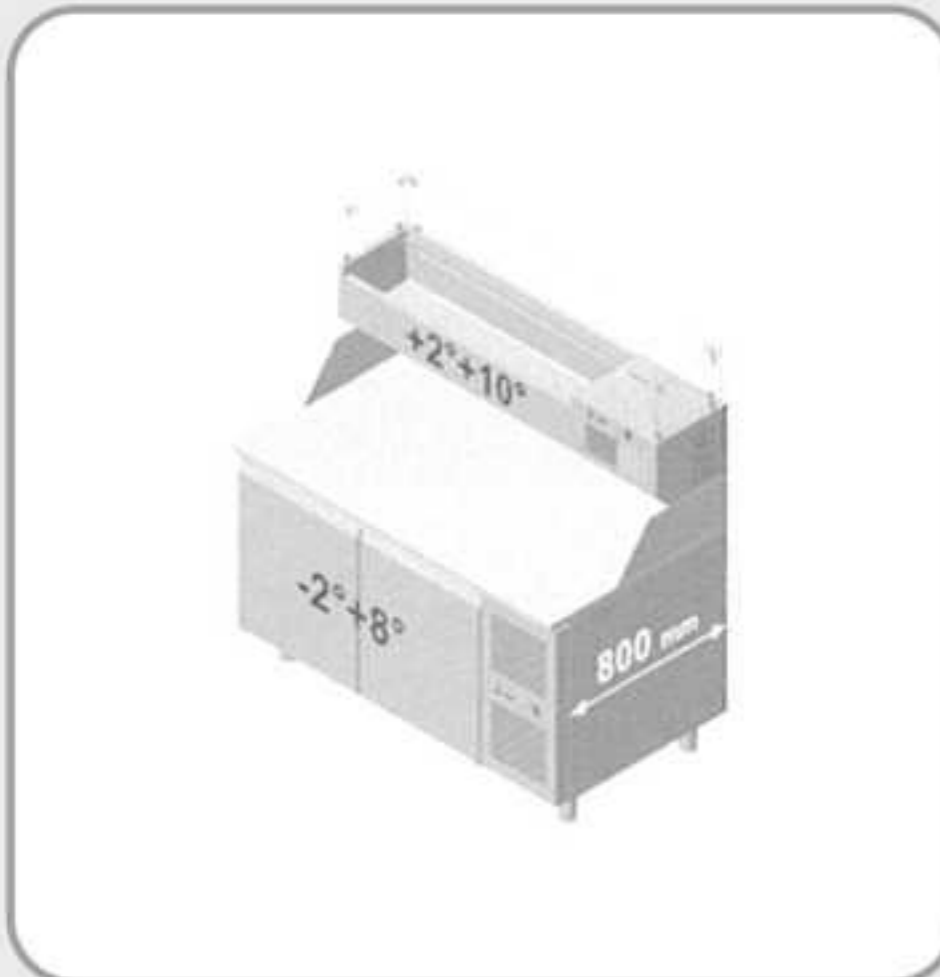

EN60x40 SERIES PIZZA TABLES

Outer/inner AISI 304 stainless steel
 Insulation layer thickness: 60 mm
 Rounded internal corners
 Stainless steel adjustable feet
 Rev. doors with stop for 105° opening
 Handles made of AISI 304 stainless steel

Replaceable magnetic seal
 AISI 304 stainless steel racks and guides
 Granite worktop
 Soundproof motor compartment
 Weather-sealed condensing unit
 Motor pos. on RH side (LH side on req.)

Ventilated refrigeration
 Evaporator treated against electrophoresis
 Replaceable refrigeration system
 Automatic hot gas defrost
 (plug-in) with electric operation (remote)
 Automatic condensate evaporation
 Electronic thermostat

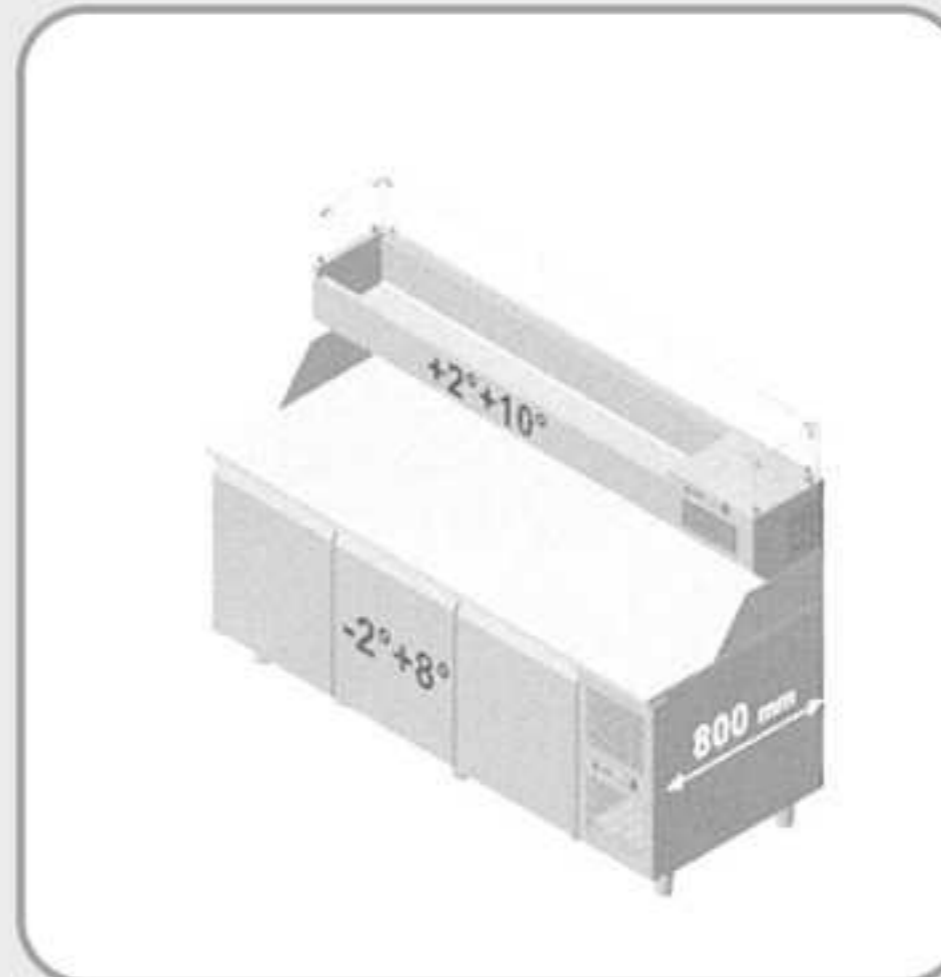

cod. 0300000010
